

Decoding Multiple Chronic Conditions (MCCs) in Older Adults: Relevance, Epidemiology, and Policy Perspectives

Date: **June 26, 2024**

Time: **9:30 am – 10:30 am ET**

9:30 am ET | 8:30 am CT | 7:30 am MT | 6:30 am PT

Webinar Registration is Required to Attend

During this session, presenters will define multiple chronic conditions (MCCs) and discuss their relevance to population health, health care, and public policy. Presenters will also explore epidemiology, policy challenges, and knowledge gaps as they relate to the study of older adults with MCCs.

Moderators

Cynthia M. Boyd, MD, MPH

Professor and Director, Division of Geriatric Medicine,
Johns Hopkins University

Jay Magaziner, PhD

Professor and Chair, University of Maryland

Speakers

Arlene S. Bierman, MD, MS

Chief Strategy Officer, Agency for Healthcare Research and
Quality (AHRQ)

Rafael Samper-Ternent, MD, PhD

Associate Professor, University of Texas

Stephanie Studenski, MD, MPH

Professor, University of Pittsburg

This webinar is part of a series featuring the authors and editors of the *Multiple Chronic Conditions (MCCs) Research Core Curriculum*. Created by the AGS/AGING Learning Collaborative, the curriculum provides a comprehensive overview of tools and strategies for including older adults with multiple chronic conditions in research. The webinars are designed to elucidate key points from the curriculum and offer an opportunity to ask the authors questions. Inclusion across the lifespan and of people with multiple chronic conditions is foundational to ensuring that study populations reflect the population that is being studied and the curriculum will provide new and emerging investigators with a strong foundation of knowledge on this topic.

To learn more about the Curriculum, click [here](#).

The AGS/AGING Learning, Educating, And Researching National Initiative in Geriatrics ("LEARNING") Collaborative, an R25 grant from the National Institute on Aging (NIA), has been awarded to the American Geriatrics Society in partnership with the Health Care Systems Research Network (HCSRN)-Older Americans Independence Centers (OAICs) AGING (Advancing Geriatrics Infrastructure and Network Growth) Initiative. The Collaborative aims to fill educational and training gaps in multiple chronic conditions (MCCs) research. National Institute On Aging of the National Institutes of Health funder grant (R25AG071488). The content is solely the responsibility of the American Geriatrics Society and does not necessarily represent the official views of the National Institutes of Health.
